Практическое занятие № 7 «Элементы вывода данных в VC++»

Учебные цели:

• получение умений и навыков работы с элементами вывода данных в VisualC++.

Воспитательные цели:

- формировать диалектико-материалистическое мировоззрение;
- формировать навыки самостоятельности и дисциплинированности;
- стимулировать активную познавательную деятельность обучаемых, способствовать формированию у них творческого мышления.

Категория слушателей: 2,3 курс.

Время: 90 мин.

Место проведения: компьютерный класс.

Материально-техническое обеспечение:

1) персональный компьютер *IBMPC* с операционной системой WindowsXP; 2) среда разработки приложений *VisualC++.NET*.

ПЛАН ПРАКТИЧЕСКОГО ЗАНЯТИЯ

Учебные вопросы	Время, мин
Вступительная часть	5
1. Метки, списки в VC++	15
2. Выполнение индивидуального задания	65
Заключительная часть	5

Задание 1. а) Используя форму (рис. 1), разработанную на предыдущем занятии, заполните коллекцию listBox1 5-6 записями о сотрудниках.

б) Разместите на форме кнопку «Запрос». С помощью запроса по фамилии сотрудника (рис. 2) вывести на экран всю информацию о нем.

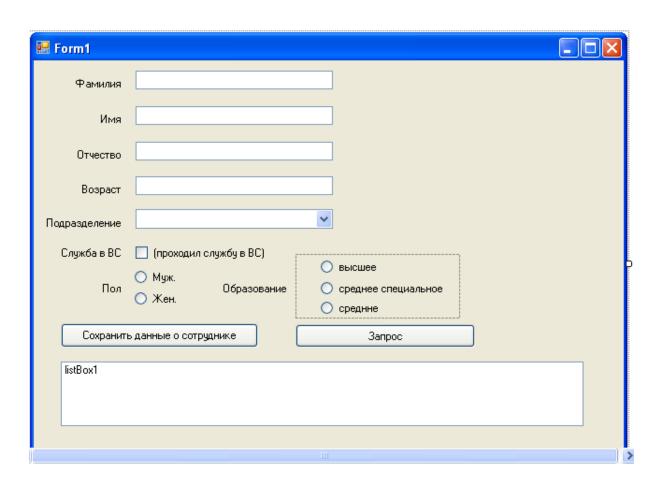

Рис. 1. Форма для ввода информации о сотрудниках в режиме «Конструкор»

Рис. 2. Запрос для поиска информации о сотруднике

Задание 1.

Элементы в списке программно доступны через свойство ComboBox.Items. Количество элементов в списке можно получить через ComboBox.Items.Count. Добавлять элементы можно методом ComboBox.Items.Add, удалять методами Remove и RemoveAt. Текущий отображаемый элемент Items можно программно поменять через значение свойства SelectedIndex.
